## OFFER DESCRIPTION

The Polytechnic of Leiria is now opening applications for (one) scientific post-doctoral research fellowship (BIPD\_303) within the project “ShareForest - Partilhar as decisões nas florestas – metodologia participativa para o envolvimento do público e dos atores sociais na proteção e valorização das florestas em Portugal”, reference PCIF/GRF/0050/2019, funded by FCT - Fundação para a Ciência e a Tecnologia, in the following terms:

- . SCIENTIFIC AREA: Management, Economics, Social Sciences or related scientific areas.
- . RECIPIENTS: National, foreign and stateless candidates who hold a PhD in Management, Economics or other Social Sciences or related scientific areas, obtained in the three years prior to the date of submission of the application for the fellowship and holders of a scientific and professional curriculum that reveals an adequate profile for the activity to be developed.

Candidates who hold qualifications obtained abroad must prove recognition, equivalence or registration of a doctorate degree, under the terms of the applicable legislation. This formality must be completed by the date of conclusion of the contract.

(Article 7 of the FCT Regulation).

. **DURATION:** 12 months, eventually renewable until the end of the project or the maximum duration for this research fellowship type. The fellowship is due to start in October 2022.

. **WORK PLAN:** The candidate will be responsible for carrying out the following activities:

i) review and analysis of scientific literature;

ii) elaboration and preparation of qualitative and quantitative data collection methods (interviews and questionnaires, news, among others);

iii) coordination and participation in the collection and analysis of data, using, in particular, SPSS and NVIVO software;

iv) development of appropriate public participation methods and organization and facilitation of workshops, focus groups, field visits;

v) support for all tasks that involve interaction with project stakeholders, logistical organization, preparation of participatory events and support and respective dissemination and communication activities;

vi) analysis of the results of public participation;

vii) participation in the management of the website and networks associated with the project;

viii) participation in scientific communications and publications associated with the project results;

ix) participation in communications to non-scientific audiences;

x) collaboration in project management activities, namely in terms of supporting team coordination, communication with FCT, writing project reports, controlling accounting and various administrative tasks.

. **WORKPLACE AND SCIENTIFIC SUPERVISION:** The work will be developed at CARME, located at the School of Technology and Management of the Polytechnic of Leiria, under the supervision of PhD Professor Maria Eduarda da Silva Teixeira Fernandes.

. **GRANT FINANCIAL COMPONENTS:** Monthly maintenance stipend of € 1.686,00, according to the FCT Regulation for Studentships and Fellowships

(<https://www.fct.pt/apoios/bolsas/valores>) plus, if applicable, the monthly Voluntary Social Insurance, according to the conditions defined in the Research Fellowship Holder statute, as well as the Personal Accident Insurance, during the research fellowship period.

. **PAYMENT:** The maintenance stipend will be monthly processed, through bank transfer, to the account identified by the research fellow.

. **ACTIVITY SCHEME:** Exclusivity, according to the applicable legislation.

. EVALUATION PANEL: The jury responsible for the applications evaluation will be constituted by PhD Professors: Maria Eduarda da Silva Teixeira Fernandes (President), Fernando Paulo Oliveira Magalhães and Elisabete Figueiredo (effective members), Olga Maria Assunção Pinto dos Santos and Nuno Miguel Morais Rodrigues (substitute members).

. APPLICATION DEADLINE: 05<sup>th</sup> to 16<sup>th</sup> of September of 2022.

. SELECTION METHOD AND EVALUATION CRITERIA: Evaluation will be based on the curricular analysis (AC) and an interview (EN), expressed on a numerical scale from 0 to 20 values. The evaluation of the scientific and curricular path (AC) focuses on the relevance, quality and timeliness:

- a) Scientific, technological, cultural or artistic production in the last five years (A) - 50%;
- b) Extension and dissemination activities of knowledge developed in the last five years, namely in the context of promoting culture and scientific practices (B) – 25%;
- c) Professional experience with an impact on activities inherent to the job and their degree of complexity (C) – 25%.

Curricular Evaluation:  $AC = (H \times 50\%) + (B \times 25\%) + (C \times 25\%)$ .

The evaluation and ranking criteria are contained in the minutes prepared by the jury, which may be consulted upon request by interested parties.

Candidates with a grade lower than 9.5 in the AC are excluded from the contest. Candidates who have not been excluded after the curricular evaluation are invited for an interview, to clarify aspects related to the research results or others that are part of the curricular evaluation, as well as to assess their communication skills, sense of responsibility and motivation to work on the project.

The final score of each candidate is obtained through a weighted average, with a weighting factor of 70% being assigned to the curricular evaluation grade and a weighting factor of 30% to the interview grade ( $NF = 70\% AC + 30\% EN$ ). In the event of a tie, the decision will be made by the president of the jury.

Observation: If the candidate(s) with foreign qualifications(s) do not present, during the application phase, the recognition of the degree or foreign diploma and the classification conversion to the Portuguese scale, the jury defines the conversion only for the application purposes based on the rules of the legal regime applicable to the recognition of foreign degrees and diplomas or, when not possible, applies the minimal classification of 10 points.

Note that foreign academic degrees need to be registered by a Portuguese institution, in accordance with Decree-law no. 66/2018, dated August 16<sup>th</sup>, and Ordinance no. 33/2019, dated January 25<sup>th</sup>. The presentation of the certificate is mandatory for signing the contract.

More information can be obtained at: <https://www.dges.gov.pt/pt/pagina/reconhecimento?plid=374>

. ELIGIBILITY OF CANDIDATES: Without prejudice to the applicable rules to each type of research fellowship, the following candidates are eligible:

- a) National citizens or citizens of other member states of the European Union;
- b) Third-party states citizens;
- c) Stateless persons;
- d) Beneficiaries of political refugee status.

. SUBMISSION OF APPLICATIONS: Applications must be addressed to the president of the jury and submitted by CRIS.IPLeia portal at: <https://intranet.ipleiria.pt/cris/candidaturas>, with the following documentation attached:

- a) Copy of the detailed and structured curriculum vitae in accordance with the items of the evaluation criteria set out in this public notice;
- b) Other documents relevant to the assessment of qualifications in a related scientific area or any other documents that the candidate deems relevant for the purposes of assessment;
- c) Copy of qualification certificates with the respective classification or other legally recognized suitable document for the purpose.

. RESULTS | DISCLOSURE AND COMPLAINTS: The jury will send to the candidates, by e-mail, the provisional results of the evaluation (presented in the form of the minutes resulting from the evaluation process) within 90 working days after the application deadline. After this disclosure, candidates have 10 working days to pronounce, if they wish, in the appropriate form available in the institutional webpage, under the terms of the administrative procedure code (CPA). The final decision will be taken within a maximum period of 60 working days after the conclusion of the previous hearing of interested parties, of which a complaint can be filed within 15 working days, after notification, to the highest executive body of the Polytechnic of Leiria. Within the scope of the research fellowship award procedure, if the final ordering list, duly approved, contains a number of approved candidates higher than the number of research fellowships to be filled, an internal recruitment reserve is always created, which can be used when there is need for occupation due to withdrawal of the scholarship holder, under the terms of the CPA, to be used during the eligibility of the project.

. APPLICABLE LEGISLATION AND REGULATION: Research Fellowship Holder statute, approved by Law no. 40/2004, dated August 18<sup>th</sup>, in its current wording; and Regulation of Research Fellowships of the FCT, I.P., Regulation no. 950/2019, of 16 December (<https://www.fct.pt/apoios/bolsas/regulamento.phtml.pt>).

Leiria, 1st of September of 2022.

President of the Polytechnic of Leiria

Rui Filipe Pinto Pedrosa
